I was so excited to have a chance to visit the Prospect House Museum in Battle Lake, MN. It was the first time that I had ever been to the Civil War. I was amazed to see the things that the soldiers had before, during, and after the war. I learned many fun facts about it as well. It was a really fun way to learn about the Civil War.

My experience at the Prospect House Museum was really cool!! I learned a lot about the Civil War and what the soldiers used during the war. I was also able to see a lot of artifacts from the Civil War. We learned that the Civil War was way before my time. I got to hold a cannon ball from an old cannon, older than 100 years old! It’s neat!! You get to see things that you would not have been able to see otherwise.

I had a great experience at the Prospect House Museum! The people at the Museum were really friendly and they taught me a lot about the Civil War. The Prospect House is in Battle Lake, MN and it was built in 1882. It was a hotel that was in operation until 1952. The museum is set up and how the silver-ware and bowls were laid out. There were two cannonballs that were five pounds and older than 100 years old! It’s neat!!

The museum taught me that a model is just a think that’s pretty cool. I also learned that the Civil War was made from shark skin and it was very strong. I learned that the museum was set up and how the silver-ware and bowls were laid out. There were two cannonballs that were five pounds and older than 100 years old! It’s neat!!
